# AQUA BAR II specifications

*Sleek, modern water cooler with features for every environment*

Dimensions: W 12 3/4" x D 16 3/4" x H 44 3/4"  
Approximate Net Weight: 60 lbs.

**Cabinet:** ABS plastic top and front with removable metal side panels. Holes are predrilled on cabinet side for cup dispenser.

**Cold Water Refrigeration Unit:** Convection cooled condenser. Internally spring mounted, hermetically sealed compressor with automatic overload protector. No lubrication needed. Refrigerant is controlled accurately by a capillary tube.

**Cold Water Thermostat:** Temperature is controlled by an adjustable thermostat with "Off" position that is easily accessible.

**Cold Water Reservoir:** 4 gallon nonremovable type 300 series stainless steel. External copper refrigerant coil. Encased in pre-fitted molded plastic foam insulation.

**Cold Water Capacity:** 2.0 gallons of 50°F water per hour (43 x 6 oz cups).  
**Hot Water Tank:** Tank is constructed of type 300 series stainless steel with 500 watt element.

**Hot Water Capacity:** 45 x 6 oz cups of piping hot water per hour. 1 1/2 quart storage tank.

**Hot Water Thermostat:** Fixed thermostat with safety limiter.

**Hot Water Safety Faucet:** Self closing faucet requires a two-step action that is easy for adults to use, but helps to protect small children.

**Drip Receptor:** Drip tray lifts out for easy removal.

Molded for durability, dishwasher safe.

**Optional Water Filtration and Reverse Osmosis:** Aqua Bar II Standard is Filter and Reverse Osmosis (RO) ready, Aqua Bar II Deluxe and Ultra are Filter and RO ready and available with the OASIS three-stage green filter™ system or with RO.

**Warranty:** Limited 3 year warranty (within the Continental Limits of the United States and Canada). Three years on the sealed refrigeration system, one year on most component parts. Detailed warranty certificate enclosed with each water cooler; sample copy available upon request.
